CONTEMPORARY

*3,361 total square feet*

*3 Br, 3.5 Ba*

The Axis design by MossCreek is perfect for a narrow lot with a steep slope. The narrow profile and main/lower level design creates spacious luxury living with a modest square footage.

The contemporary exterior of the Axis design is full of expressive roof lines, floor to ceiling glass, and a mix of wood, metal, and stone. This organic approach ensures that this contemporary design nestles well in any natural setting.

The Axis interior features a main level with spacious open living, master suite with luxury bath, and a full laundry room. Additionally, a generous screened porch creates outdoor living opportunities free from insects.

On the lower level, the Axis design includes two guest suites and a large den that doubles as a second great room.
