LIVING STONE CONSTRUCTION

For nearly twenty years, Living Stone Construction has been producing award winning results that have been recognized on both the state and local levels. LSC President, Sean Sullivan, is one of a very few Accredited Master Builders in the state, certified Energy Star partner AND nationally recognized Green Builder. Living Stone's Design/Build services have simplified and improved the entire building process to give clients the ultimate in quality AND value. Living Stone offers what we believe every client deserves, the ability to ENJOY the building process. Our goal is to exceed expectations through superior client relations, quality, integrity and timeliness. No matter the budget, we will work with you to make your dreams a reality.

THE ALEXIS

BY LIVING STONE CONSTRUCTION

The Alexis is an alternate to our popular Alexandra model that keeps the same main floor plan and finishes, it simply eliminates the upstairs bonus room. It also, is a universally designed home that not only boasts a quaint craftsman architectural feel, but also incredibly energy efficient construction. This floor plan works well for families of all size and ages. Since it has three bedrooms with two full baths on the main level, it works great for families with younger children, but since you can trade the third bedroom for a formal dining room, it works well for the downsizing couple as well. This 3 bedroom/2 bath house boasts a spacious 1896hsf. The foundation can be placed over a crawl, unfinished basement, or finished lower level depending on your needs and desired budget.
